Line 112 FIVE-YEAR PLAN/PROGRESS REPORT

Beggs Telephone Company is an Average Schedule Independent Local Exchange Carrier in Oklahoma and serves an area of 100 square miles in and around the city of Beggs. The population of the city of Beggs was 1321 in the 2010 census with 538 households. The Telephone Company's 100 mile service area is estimated to have a population of 3000 people and 1230 households.

USAC reported that Beggs Telephone Company received ICLS support of \$193,332 in 2015. Approximately \$91,966 was used for operations in the replacement of central office and outside plant. The remaining funds were used for capital improvements which included engineering, purchasing and installing electronic equipment and buried cable throughout our exchange to enhance voice and broadband services. The Company currently offers over 63 percent of its exchange area and 85 percent of its population with the broadband requirement of 4 mbps downstream and 1 mbps upstream. One hundred percent of the exchange has access to 1.5 mbps downstream and 512k upstream. A total of 630 customers have DSL. Of the 630 DSL customers, 125 have service that exceeds 4 mbps downstream and 1 mbps upstream. The majority of our current DSL customers could have access to speeds higher than the minimum broadband requirement if they desired.

Our plan is to continue to enhance electronic equipment and outside plant to meet or exceed the minimum FCC broadband requirements.

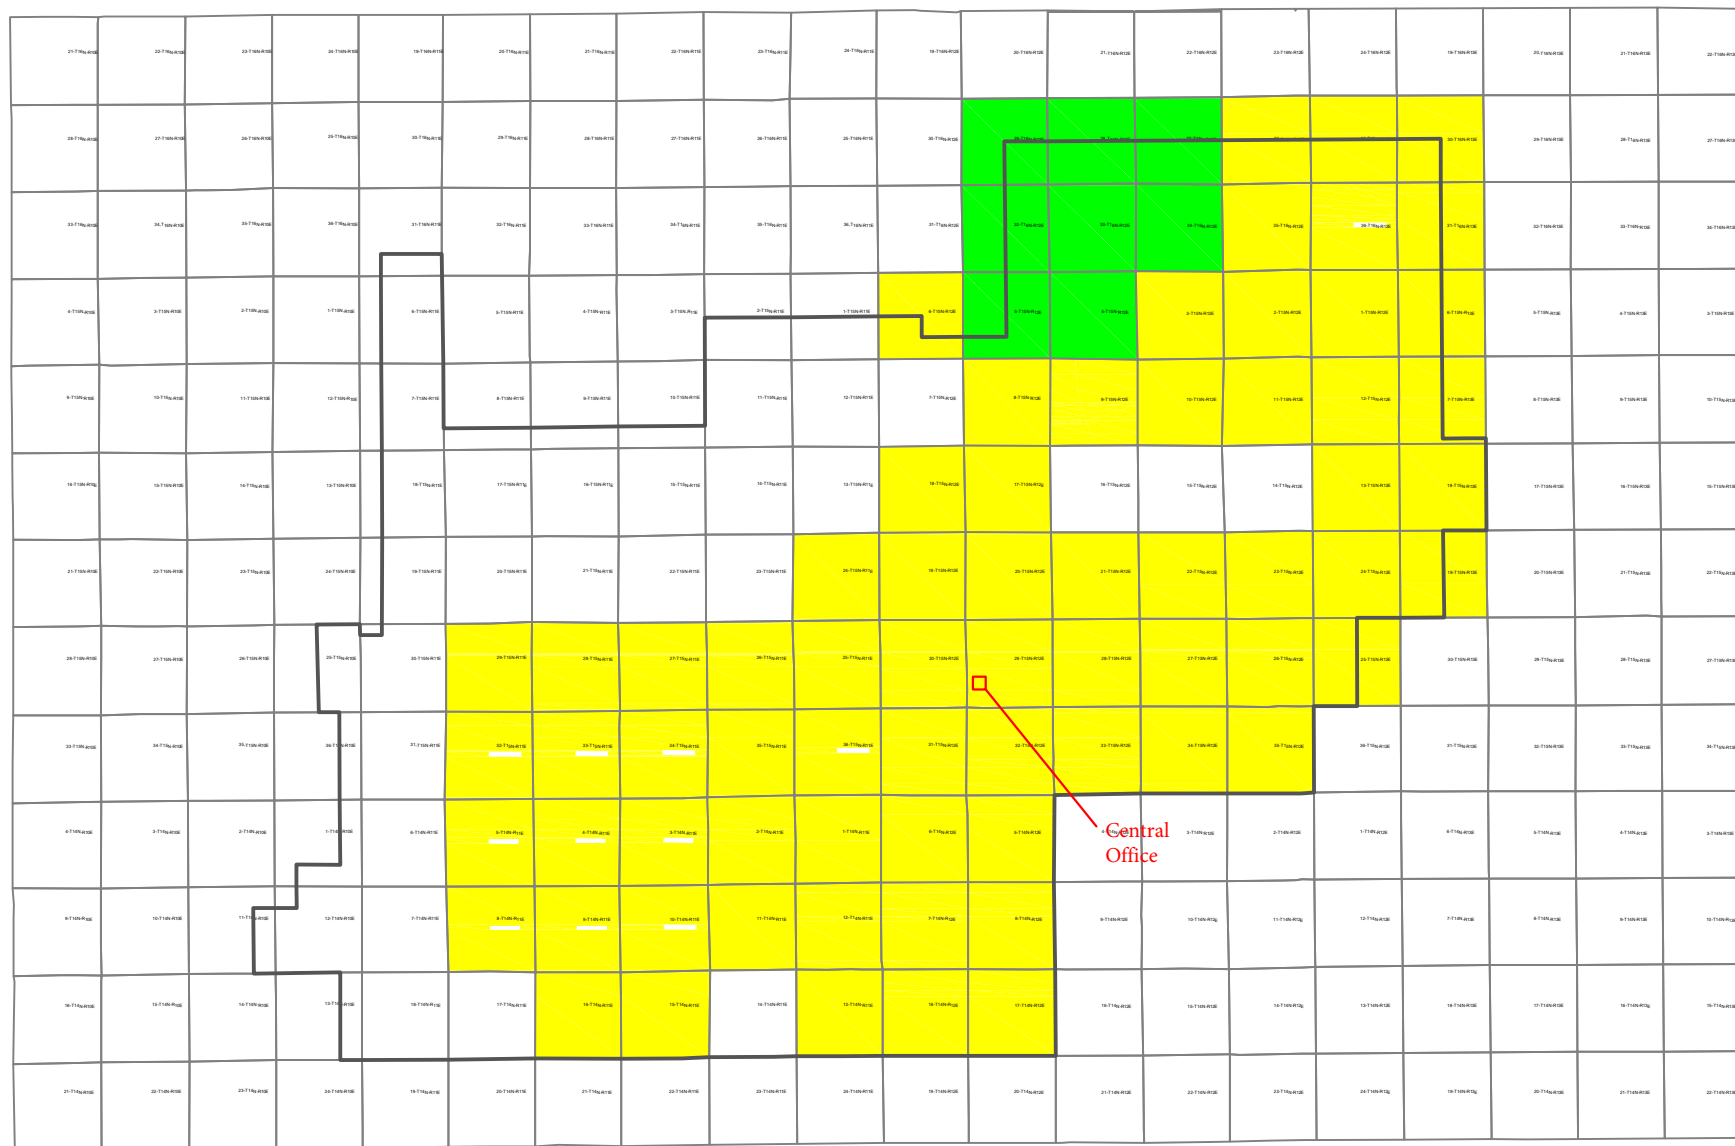

Attached is the wire center progress map for Beggs Telephone Company.
